To:

THE CHAIRMAN AND MEDBERS OF THE

TAUNTON RURAL DISTRICT COULCIL

25th March 1974.

mr. Chairman, Ladies and Gentlemen,

for the year 1973. Because of pressure of work on the Health Department and also owing to the fact that Vital Statistics of Births are not y to hand, it has not been found possible to provide a Report in the comparable form of previous years. Since Taunton Rural District Council Terms part of a combined Registration District it has not been feasible to disentangle figures of Births, Deaths, Infant Mortality and so on for this particular District. These figures will be to hand at a later date.

So far as the General Provisions for Health Services is the Fistrict are concerned these have not varied to any substantial extent from those described in my Report for 1972.

There was a sharp outbreak of Measles in the party; it of the year producing 146 cases. Apart from that, the preval nes of infectious disease was at a very low level. Notifications were received on three cases of Scarlot Fever, one case of Infective Jr whice, one case of Tulmonary Tuberculosis and two cases of Non-Pulmonary Tuberculasir. No deaths occurred from infectious disease.

Mork was begun during the year on the Sewerage Scheme to serve the parish of Kingston St. Mary.

A paper-sack system for collection of domestic refuse three .-

The building of 121 private hours and 1 (council house now completed during 1973.

The following is a table of the visits carries out of the Cublic Health Inspectors for various surposes:-
